ARTEM ALEKHIN – FULL STACK DEVELOPER

Toronto, ON|+1(647)679-0332| alekhinartem874@gmail.com | github.com/MrAlekhin | mralekhin.io

SUMMARY

I am a web developer with strong knowledge of many frontend and backend languages, frameworks, and databases. My goal is to be the best developer that I can be. Lots of people are good in design, and the same in technical skills. However, only a few people can easily combine both. I am that person. With my creativity and skills, the company will reach its objectives much faster and in more efficient way.
